

NANO SCIENCE INSTITUTE

2016- 2017

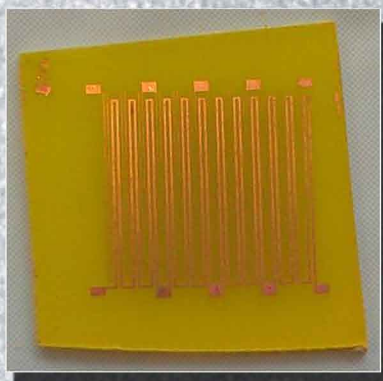

Free workshops for high school & middle school teachers ~ Free laboratory kits for 90 students included ~
Get students excited about science ~ Connect to common core and next generation science standards
Teachers can sign up for one or more workshops from the following list

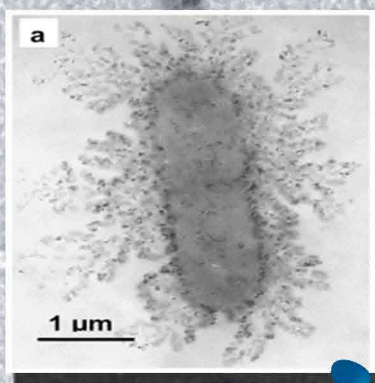

Solar Cells
October 1

Superhydrophobic Surfaces
November 5

Photolithography
December 3

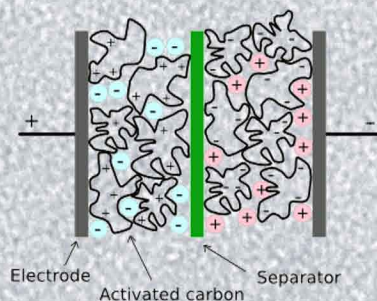

Biotoxicity
January 21

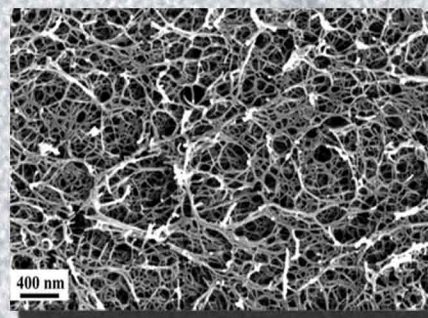

Water Filtration
February 25

50 nm

TEM Image of nanoAG synthesized by students in Biotoxicity

Electrochemical Energy Storage
March 18

Biopolymers
April 22
